Cloud Onboarding for SAP Business Data Cloud - Course Completion

Course Completion - Beginner Level

Issued by SAP Learning on June 17, 2026

This badge verifies that the learner has completed the course "Cloud Onboarding for SAP Business Data Cloud" on Beginner Level. The learner will gain a comprehensive understanding of the customer onboarding journey, ensuring a smooth implementation of your SAP Business Data Cloud (BDC) solution.
Learner will know how to access SAP for Me and the SAP BDC instances and obtain both technical and non-technical support. The course will teach also how to effectively plan projects using the SAP Activate Methodology, Cloud ALM, and Best Practices. Learner will become familiar with product release cycles, explore the SAP BDC solution and its enablement resources, and discover how to harness AI and innovation for business success. Finally, you'll learn to refine your cutover strategies, monitor systems with advanced tools, and align with SAP's strategic road map to develop a future-ready, high-performance solution.

Skills: Customer Support, Project Implementation, System Implementation
